BARCO Wins Lockheed Martin STAR Supplier Award

ATLANTA, June 4, 2002 – Today, at an award ceremony at its premises in Duluth, BarcoView has obtained the Lockheed Martin Corporation (LM) STAR Supplier Best in Class Product Award. This award is presented by Lockheed Martin to recognize its top-performing suppliers.

Dave Scott, Executive Vice President BarcoView America, comments “we are very proud to receive this prestigious award which confirms that BarcoView is meeting some of the most stringent performance criteria in the command & control industry. Winning this award is a milestone for our company, because as a STAR supplier, we will hold a more competitive position in the marketplace.”

The STAR Suppliers Award is Lockheed Martin’s way of acknowledging BarcoView for maintaining the highest performance standards in Quality, Delivery, Affordability and Management for its monitors, displays, graphic engines and radar scan converter product lines delivered to Lockheed Martin.

The STAR Supplier status will allow BarcoView to gain extra visibility across Lockheed Martin Corporation. This results in increased opportunity for more business and consideration for reduction of Lockheed Martin oversight at the supplier level.

Lockheed Martin and its customers likewise share benefits in higher supplier product quality, improved delivery performance, and associated cost savings.

About BarcoView:

BarcoView with operation facilities in Kortrijk (Belgium), Toulouse (France), Atlanta, Georgia and Portland, Oregon (USA) designs and manufactures high-resolution display systems, displays, graphics controllers and display subsystems for highly demanding niche markets such as C4I, avionics, vessel and air traffic control, vehicle electronics, and medical imaging applications.

Alongside Barco Projection Systems and BarcoVision, BarcoView is one of the three strategic activities of the BARCO Group, which are all active in Image Processing. Barco Projection is in various markets of large screen visualization, whereas BarcoVision develops systems for visual inspection and quality control. In 2001, the entire BARCO group delivered a turnover of 792 million EURO. BARCO has a network of subsidiaries, distributors and agents in 97 countries throughout the world. BARCO has been quoted on the Brussels Stock Exchange since 1986, and is now quoted on Brussels/Euronext. BARCO is a BEL 20 and a Next 150 company and is a member of the Dow Jones Sustainability Indexes.

About Lockheed Martin:

Lockheed Martin Naval Electronics & Surveillance Systems – Tactical Systems in Eagan, Minnesota, is a premier systems integrator for U.S. and international customers. The company's business focus and strategic drive revolve primarily around designing, integrating, and manufacturing systems solutions. The company is also a leader in integrating commercial off-the-shelf (COTS) equipment, ruggedizing it where necessary for hostile environments and inserting new technology.

Headquartered in Bethesda, Md., Lockheed Martin is a global enterprise principally engaged in the research, design, development, manufacture and integration of advanced-technology systems, products and services. The corporation's core businesses are systems integration, space, aeronautics, and technology services.
