

# CRT PROJECTOR CONTROL SOFTWARE

## Projector Support Software Package

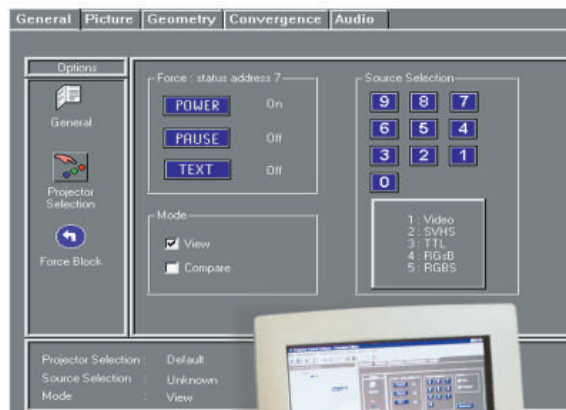

BARCO's new CRT Projector Control Software is a Windows-based projector support software package which allows the control of up to 255 BARCO digitally controlled CRT projectors via any personal computer provided with Windows 95 or Windows NT operating system.

### Concept

All settings, including brightness, contrast, color, tint, sharpness, as well as geometry, convergence and IRIS functions can be adjusted for each individual projector. This allows the PC to replace the standard infrared remote control unit.

### Features

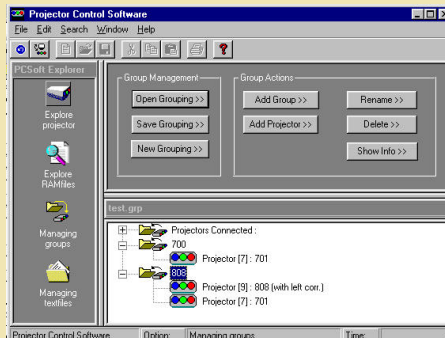

- Easy to install and un-install
- User-friendly interface through a Windows Explorer approach
- All image settings can be manipulated and stored on hard disk or diskette for future use
- Direct control one or more projectors from within Direct Access or with the simulated Remote Control
- Easy source switching or source selection
- Shortcut icons have been created to directly access certain features

# Technical Specifications

When the PC has an active on-line connection with the projector(s), the user can quickly switch between the various CRT projection systems with the tree-view display of the projectors on the screen. Blocks of settings can easily be manipulated with drag-and-drop to copy, move, delete or undelete settings.

When the computer has no connection with the projectors (off-line use), projector groups can be defined and projector parameters can be edited.

## System Requirements

The CRT Projector Control Software is a 32-bit application and runs on any PC with at least Windows 95 or Windows NT as operating systems. The Software Package requires a PC with minimum 2.4 MB of free disk space available

## Compatibility

Compatible with all current BARCO CRT Projectors. Communication is made through the RS232 communication line

## Advanced Version

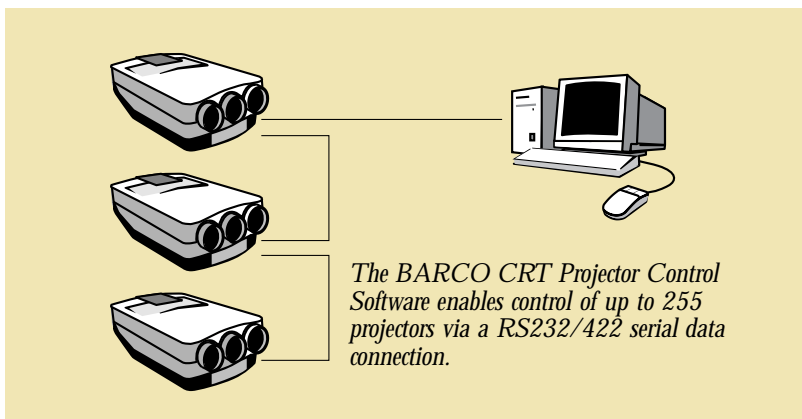

The Advanced Version has advanced features to do group management of several BARCO CRT projectors

## Order Information

CRT PROJECTOR CONTROL SOFTWARE  
 Standard Version<sup>(1)</sup> R9828680  
 Advanced Version R9828690

## BARCO Communication Cables

D9-pin male/female  
 - 16 ft. / 5 m R9827770  
 - 50 ft. / 15 m R9827560  
 - 100 ft. / 30 m R9827570

(1) The Standard Version is now delivered for free with the purchase of most BARCO CRT projectors.
