

# ClickShare CSE-200+

wireless collaboration solution for creative content-sharing  
fit for enterprise roll-outs

- Up to 2 users on-screen
- Share from laptop, tablet or smartphone
- Smooth switching between wired and wireless sources
- Enhanced security features
- Annotation, blackboarding and touch back support on a 4K canvas
- Central management
- Delivered with 2 Buttons

Creativity boosts businesses. Enabling creative meetings, brainstorming and discussions enhance team collaboration and business outcomes. With the wireless collaboration solution, ClickShare, you bring effortless ideation and efficient collaboration in your enterprise.

## Enriched sharing

The CSE-200+ offers interactive collaborative experiences for medium-sized meeting rooms. It allows up to 2 persons to share content simultaneously. Users simply plug a USB-powered device – the ClickShare Button – into their PC or Mac and click the button to get the content from their laptop on the large meeting room screen. With the ClickShare Apps, users can also share content from their laptops, mobile phones or tablets. Make sure to have firmware version 1.7 installed on your Base Unit to enable the best experience with the Desktop App.

## Stimulate creativity in your entire enterprise

The CSE-200+ was designed for enterprise rollouts. It offers a HDMI input for legacy equipment, easy switching between wireless and wired sources, enhanced security features, full network integration, a wide range of interactivity features - including annotation, blackboarding and touch back support on a 4K canvas and central management. Allowing up to 2 persons to share content simultaneously, the CSE-200+ encourages brainstorming and productivity in your enterprise.

The CSE-200+ is a product created with ISO 27001 certified flows and processes.
