

SLM R6 Performer

A Compact and Smokeproof Projector for Rental & Staging Applications

- Enhanced low-light video performance is the result of its newly designed pixel map processor.
- Integrated linked Constant Light Output (CLO), which can be linked with other R6 projectors for use in multi-screen applications.
- True seamless switching includes transition effects such as cross-fade, wipe, etc. and Picture-In-Picture capability.
- The unique "click-and-play™" lenses make it possible to exchange lenses in seconds. Carrying handle with integrated rigging system. Direct stacking and interlocking design enable an easy and stable setup.
- Sealed optics significantly reduce optical system maintenance, which allows the R6 to be used at events where smoke generators are involved. Modular structure provides greater accessibility to serviceable parts.
- The optical system's compact and lightweight lens range is designed for the continuing evolution of the DLP technology.
